Presenting Enebros

The fifth project in the Real de La Quinta Residential Country Club Resort*, Enebros, represents a significant elevation in the concept, quality and lifestyle within the resort.

The contemporary design captures the sensations this prime location engenders whilst the natural materials used throughout the construction create a powerful connection with the natural surroundings.

Enebros encapsulates everything that represents the best of Real de La Quinta Residential Country Club Resort* taken to new heights.

Enebros

The construction of Enebros is proposed in two phases, corresponding to the 2 distinct levels of the prime hillside position thereby taking full advantage of the privileged position on which will sit our finest development to date.

Phase 2 is comprised of 29 of the 48 total number of apartments, distributed across three 3 floor buildings offering the perfect combination of apartments to meet our client's requirements.

Wonderful ground floor apartments with gardens and private swimming pools, spacious first floor apartments with large terraces, our famous first floor penthouses with swimming pools and solariums, and our luxurious top floor super penthouses with their private pools and huge solariums.

All with spectacular views inviting unbridled enjoyment of the climate and sunshine of Andalusia.

Close to all the proposed features of the La Quinta Residential Country Club Resort*, Enebros will dominate the skyline.

A Stunning Location

Real de La Quinta Residential Country Club Resort* is situated within an exceptional natural enclave bordered by spectacular, panoramic sea views to the South, the emblematic La Concha mountain to the East and the Sierra de Las Nieves mountain range, a UNESCO protected biosphere and Spain's 16th National Park, and the third in Andalusia, to the North.

Although it is merely minutes from Marbella and Puerto Banús, it breathes a different, fresher air.

Within Enebros residents will feel completely immersed in nature with the scents and sounds of unspoiled countryside from this elevated position.

A Certified, Sustainable Lifestyle

As with everything within the Real de La Quinta Residential Country Club Resort® Enebras is conceived to become an integral part of the landscape. Showing complete respect for the natural environment with a careful blend of the most advanced construction techniques and local materials its impact will be minimal, and yet residents will enjoy the benefits of advanced, modern living.

The design respects the natural contours of the land to maximise the superb position for panoramic views across the entire Resort.

Real de La Quinta Residential Country Club Resort® is **the first project in Spain to receive the infrastructure planning certificate issued by BREEAM**, the leading global sustainability assessment organisation.

Our first two developments, Olivos and Quercus, have been certified with the **VERY GOOD** classification and it is our intention to meet the same exacting requirements with Enebras.
